TUESDAY MORNING, NOV. 7. Even since the publication of our Even since the publication of our old friend Judge Thompson's note, magnaninously desisting from any further presecution or persecution of Gov. Peirpoint, we have had no tidings from him until yesterday. He has not been keeping tavern out the national road, however, but has been finishing up the greatest book of modern times, as we are told in a letter yesterday from his Philadelphia publisher, who is on the point of issuing it to the world. The name of the book is nothing less than didnes, pledged to repeal the oath bill;

past, and corrowers and ress dimently in supplying their wants. But there is an active demand for loans, and 7 per cent, is the usual rate, though there are occasional transactions for large amounts with Government securities as collateral at 6 per cent. The scarcity of currency has led to the accumulation to some extent of business paper, and some of the banks have quite as much of it as they can manage. The rates for business paper range from 7 to 12 per cent, according to the signatures. The activity in all kinds of business, the constant development of new enterprises which require large amounts of capital for their inauguration and management, and the winter trade in beeinnd pork, will prevent any large securates.

At the West money is still very tight, and the pork and beef packing season is being delayed in consequence of the inability of the banks to give the needed accommodation to the packers. The banks at Chicago are londed down with produce paper, and the grain dealers, who have held on to their stocks in hopes of crowding up the market to fabulous figures, are unable now to get their wheat and oats converted into greenbacks on account of high rates of freight and the inability

The only test will be their future interesting the same of the proper than the proper tha tentions, as for instance their promise to be good and loyal citizens of the United States. In the list are included the names of Senators Van Winkle and Willey, of this State. The Republican may know a great deal more about the intentions of our two Senators than people up this way, but we doubt it. We do not suppose the gentlemen alluded to will be precipitate about opening the doors of the United States Senate to parties who would doubtless improve any favorable opportunity to unseat them after getting in. West Virginia is one of the States that can afford to exercise a very wise circumspection just at this time about rebel ascendancy. In fact, it is very obvious that it stands her in hand to be quite as careful as Massachusetts. The recent expression of the people of West Virginia does not go a great ways to-

The republicans have carried Nebraska, electing Augustus Kountzs territorial treasurer by about 700 major-ity, and Mr. Gillespie auditor by 500 majority. They have also secured a majority in both branches of the legislature. The emigration of pro-slavery men from Missouri helped the demograts considerably, and the earlier reports indicated their success; but the republican voters proved too strong for them.

We like this title very much, and we are not at all suprised to learn that the book is a perfect maryel in the way of new and very big ideas. The publisher himself speaks of it in the most enthasiastic forms. He tells us that "It offers a new solution for the unity of the human race. It solves the "paradox of their intellectual and "moral diversities. It lays the formulians of solentific expression, and in establishing the underlying identices of "the human race and their 'mage and "likeness' to the triune essentialities in "God it legitlmates and harmonizes the "correlative unity of all science and literature. It is the first decided step to "ward an American philosophy."

Something like this sort of a work is what the American-people have been greatly in need of for a very long time. It ought to have a great sale these chieval than the work of the struck oil. As soon as we receive the advance copy promised us, we shall lose no time in affording our readers copious extracts.

The North Carolinians have declared that their ordinance of secsion has always been null and void. That is the true way to treat the subject. The action of the Georgians is entirely compatible with the doctrine that the ordinance of secsions was rightly and constitutionally adopted in 1899. UPSHUR COUNTY.

It would seem from an editorial in the Upshur county Republican that Dr. Pinnell, the Union nominee, had to encounter the opposition of Mr. Farnsworth, the late Senator. But notwith-standing that opposition, he was elected, although we notice he ran considerably behind the vote of Mr. Teter. The Republican charges that Mr. Farnsworth is a disappointed political engineer.

Though it is not always prudent, and seldom agreeable, for persons to hereld shelf misfortanes to the world; yet, lest a wrong construction might be placed upon the action of the loyal people of this county, in the late election, we will just state that under circumstances entirely beyond our control, an old school Democrat and Southern sympathizer, James F. Given, has been by similar material elected to the House of Delegates from this county, who, if he takes the coath of office at all, will do so in the face of facts that an honorable man would not disregard; and with a few exceptions, similar material has been selected to fill all minor offices in Braxton county. As we may have more to say at a future time respecting the antecedents of our for their representative in the Legislature, we will close, by supposing—that of course "Where little is given, little can reasonably be expected.

It will be seen by the returns that Ferguson was badly beaten, and that the repudiation of his former sentiments did not meet with the approval of his constituents.
